SERVING OVER **16,000** CHILDREN WITH **75** TECHNOLOGY CENTERS IN **29** COUNTRIES WORLDWIDE

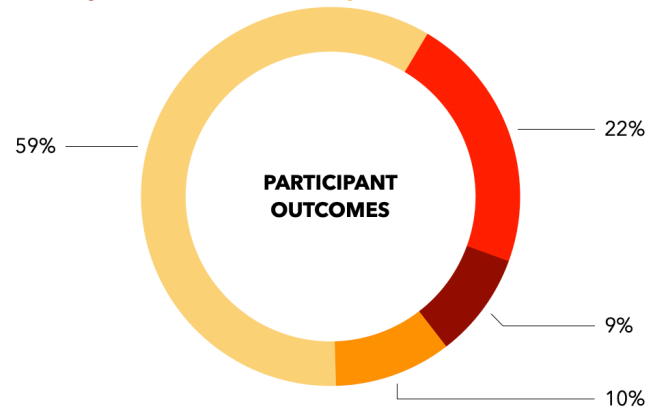

MEET DÉBORA

Today Débora has called Casa Hogar Madre Albertina in Nicaragua home for over 7 years. Throughout this time, Débora experienced academic and personal growth, which led to professional development. Due to socio-political factors and COVID-19, her studies migrated to virtual learning. With the help of OSF, Débora had the necessary tools and technology to continue her studies virtually. Through the computer program, Internet access was fundamental in her ability to complete her degree and allow her to graduate this past January 2021. OSF is proud of Débora's achievements despite her obstacles.
